

**DuraVision Newsletter November - December 2014**

**2014 RECAP**

With Christmas only a few weeks away and this is my last newsletter for 2014 I thought why not have a recap on what has been happening here at Bennett Mirror Technologies for 2014. Business has been going well and that is a big thank you to you our distributors. In April, Gordon after almost 10 years with Bennett's left the company. He purchased a cafe in Lake Rotoma and is now busy running his cafe. In the last couple of months we have introduced 2 new products that our distributors in New Zealand have taken on board with some great interest. These being the new Outdoor Deluxe Half dome mirror as well we have introduced a new extra strong adjustable handle for the Inspection and Lookunder mirrors. Not that there was anything wrong with the other handle, this new handle has given our customers more options. If you have missed all the information on these two great lines click on the two illustration on the right. If you have any questions in regards to the new products please send them through to [duane@bennettmirror.com](mailto:duane@bennettmirror.com).

**CHRISTMAS CLOSURE DATES**

We will be closed from December 23rd until January 12<sup>th</sup>. We might not be here in person but we will still be able to answer any emails that come through.

**DRIVEWAY ACCIDENTS:**

As I type this newsletter, it is sad to hear that another child has been killed in our NZ driveways. As my last newsletter was directed at Driveway mirrors it is sad to hear of this. If you are out visiting clients, friends and family and you notice a situation where someone can be injured or killed be proactive and sell them one of our convex mirrors that could be used to reduce the risk.

We wish you and your family a safe and Merry Christmas and a Happy New Year. If you are travelling over this period please drive safe and look out for each other.

Cheers  
Duane, Alastair, Ben, Lisa, David M, David S, Jill and the Team.

**TWO-WAY DRIVEWAY SAFETY MIRROR**

The new Outdoor Deluxe Half Dome Mirror is designed for driveway safety when a driver needs to see both left and right before exiting a building to avoid collisions. The lightweight vinyl back and lid is sealed to enclose the cavity and to withstand weather. Ideal for busy forklift loading areas, warehouses, factories and industrial buildings. Also an easy way to observe children around schools or childcare centres for outdoor play areas. Complete with adjustable outdoor J-Bracket, this new innovation is available now and is one of the most effective ways to improve two-way visibility.

- Features
- Impact Resistant Acrylic Face
  - Available in 600x300mm and 900x450mm sizes.
  - Outdoor weather resistant
  - 180° Viewing Area
  - Vinyl Chuka Back and Lid
  - Complete With Adjustable Wall Mounting Bracket
  - 60mm and 75mm U-Bolts are available for Pole Mounting
  - Easy Maintenance
